SARAH LANDAU

ABOUT:

My name is Sarah Landau. I am a frontend developer from St. Petersburg. I love open-source, beautiful solutions, clean code, Linux and all sorts of geeky stuff. I am fluent in html5/css3, javascript (ES6). In my free time, I pumping my skills, ride a board, run a Telegram channel, create small projects, work with 3d printing. For the last 2 year I have been working and developing in development I help experts and businesses to develop their product. I create each of my projects special, thoughtful and effective.

EDUCATION:

Saint-Petersburg State University of Aerospace Instrumentation

faculty aerospace engineering (2014-2018)

Level-Up (three-month course on learning JavaScript)

(2018-2019)

Hexlet (Deep Learning React js)

2020-2021

WORK EXPIRIENS:

Freelance projects on react.js and typescript

(2018-2022)

INTERESTS:

Computer science, longboarding, blogging, space, reading, hiking, self-development.

SUMMARY:

I have been working as frontend dev on more than 1.5 years. Before that I worked with only Ui/UX . I understand basic principles of React js and have good knowledge of React core library. Also I know general computer science stuff like algorithms, complexity and data structures. I have tech mindset. I am easy to learn and I love to know something new every day. Moreover, I do not forget about soft skills and I think it takes important place in developer's career.
